## HYBRID RESILIENT CARPET

### PRIZM PATTERN TILES CARPET FEEL, RESILIENT TOUGHNESS

#### EVO LAYERING TECHNOLOGY

- FLOW COATING OF MICRO-REINFORCED POLYMERS
- STRANDS OF COATED YARN TIGHTLY WOVEN
- PROTECTIVE COATING OF MICRO-REINFORCED POLYMERS
- ACOUSTICAL PERFORMANCE LAYER
- STABILIZING PERFORMANCE LAYER
- ANTI-CURLING PERFORMANCE LAYER

Hybrid Resilient Carpet (HRC®) is a textured resilient flooring specifically designed for commercial settings. Combining strength, durability, and versatility with minimal maintenance, HRC offers the aesthetic appeal of traditional carpet without the usual upkeep challenges. Its impermeable surface resists dirt and moisture, making it ideal for demanding environments. Advanced manufacturing innovations ensure HRC resists fading, gapping, shrinking, and delamination.

## PRODUCT HIGHLIGHTS

50cm x 50cm Tile

3.0mm - 5.0mm Thickness

20mil Wear Layer

R11 Anti-Slip

Waterproof

Glue Down or Free Lay

No-Wax Maintenance

FloorScore® Certified

EPD Verified

20-Year Commercial Warranty

HRC is available in coordinating patterns and colors that can be mixed, matched, or custom-cut into unique shapes, allowing for the creation of distinctive and engaging spaces. The product can be precisely cut without fraying at any edge, ensuring a clean finish. Multiple layers of micro-reinforced polymers coat and protect the integrated layers, preserving the surface's integrity and appearance over time. The unique woven texture also provides an anti-slip surface, making HRC safe and ideal for wet environments like locker rooms and fitness centers.
