

# AVT

ACOUSTICAL VINYL TILE  
HIGH-PERFORMANCE  
LUXURY WOOD DESIGNS

## EVO LAYERING TECHNOLOGY

- DUAL CLEAR CERAMIC BEAD COATING
- VISUAL LAYER WITH HIGH-DEFINITION DESIGN
- ACOUSTICAL PERFORMANCE LAYER
- STABILIZING PERFORMANCE LAYER
- ANTI-CURLING PERFORMANCE LAYER

Acoustical Vinyl Tile (AVT)® is designed to withstand heavy foot traffic, scratches, and stains while providing comfort underfoot and excellent sound absorption and insulation. Its dual ceramic bead finish ensures exceptional protection for high-demand environments requiring easy maintenance. The embossed textures give AVT a natural feel and accentuate its sharp, vibrant wood designs.

## PRODUCT HIGHLIGHTS

5.0mm Thickness

20mil CB Finish

6" x 48"

7" x 48"

Waterproof

Glue Down or Free Lay

No-Wax Maintenance

FloorScore® Certified

EPD Verified

20-Year Commercial Warranty

With a true overall thickness of 5.0 mm, AVT is an ideal choice for a durable floor offering maximum stability. Engineered to prevent shrinking and gapping while maintaining exceptional squareness and straightness, AVT allows for easy, worry-free installation, even with a free-lay method.

Available in a variety of natural wood colors and textures, AVT seamlessly integrates with any aesthetic, enhancing both style and function. Choose AVT for a quieter, more comfortable space.
